

Wednesday 20<sup>th</sup> January 2021

Hello everyone,

It's Wonderful Wednesday! What AMAZING instructions I saw yesterday showing me how to plant a bean like Jack did in the story. Well done all of you for all the brilliant work you are doing. It makes me so happy!

Don't forget Joe Wicks is doing his live PE session today at 9am (which you can access at any time on his YouTube channel).

Also, you can still access music online through this link:  
<https://www.norfolkmusic.org.uk/site/logins/students-login>

If you can't remember your child's login, message me on ClassDojo and I can pass it on to you. At the moment both Reception and Year 1 are completing the unit called 'In the Groove' which you will find on the website. If you have any questions about this, please do ask me!

Just so you all know, I have a training session today from 2-3pm and then a meeting from 3.45-5pm so if I don't get back to you today this is why but I will make sure to reply in the morning tomorrow.

Have a super day and a fun time learning!

Mrs Cole

here's a BOOst of positivity!

Maths (20 minutes)

Today in maths we are using the greater than, less than and equals symbols to compare number sentences.

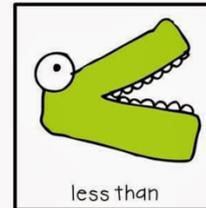

Watch the teaching video below:

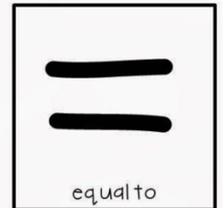

Year 1 Maths 20th January 2021

greater than

less than

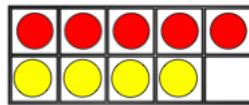

equal to

<https://www.loom.com/share/0f01158cab5f464aa50b59550711db16>

Task:

1)

Which card completes the number sentence?

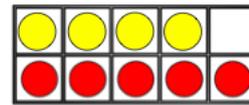

$5 + 4$

is more than

is less than

is equal to

$4 + 5$

2)

Use  $<$ ,  $>$  or  $=$  to compare the number sentences.

$3 + 8 \bigcirc 8 + 3$

$18 - 5 \bigcirc 18$

$12 + 4 \bigcirc 12 - 4$

3)

Choose the correct digit card to make the number sentences correct.

$13 - 5 < 13 - \underline{\quad}$

$16 - 4 = \underline{\quad} + 4$

$9 + \underline{\quad} > 9 + 1$

4

8

2

**Extension questions:**

Pick at least one to complete.

1)

Parent answer:

Alex

Any number less than 11 would make this correct.

$$7 + 11 < 7 + \underline{\quad}$$

Alex is incorrect. She needs to use any number greater than 11

Do you agree with Alex?

Explain why.

2)

Parent answer:

Dexter is working out which symbol to use to compare the number sentences.

$$14 - 5 \quad \bigcirc \quad 14 + 5$$

The missing symbol must be = because all of the numbers are the same.

Dexter is incorrect because when you take 5 away from 14 the answer will be smaller than when you add 5 to 14 so the correct symbol should be <

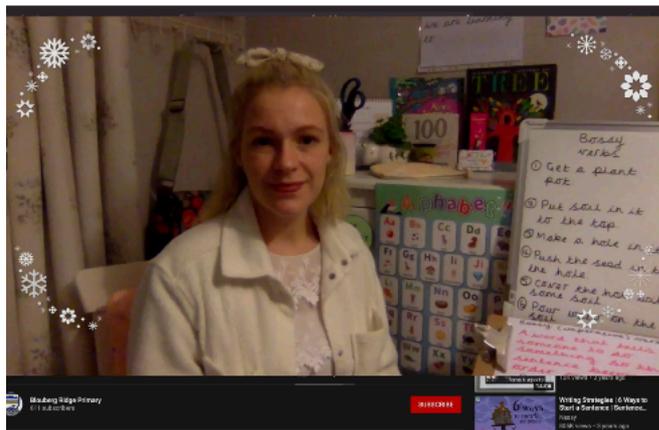

Do you agree with Dexter?

Explain why.

Literacy and Topic: (15-20 minutes)

**'Jack and the Beanstalk' and instructions:**

Watch the teaching video below:

Literacy (Bossy/Imperative Verbs) Wednesday 20th Januar...

<https://www.loom.com/share/1cfla2acc36b4f15a994e737ec435342>

(see the next page for your task)

### Task:

- Using your work from yesterday to help, write a set of instructions telling someone how to plant a bean. Remember to be precise, use bossy (imperative) verbs and to number your instructions, starting with 1.

An example of this would be "1. **Get** a plant pot and **put** some soil in it so it's almost full" and "2. **Make** a small hole in the soil using a spoon handle."

### These are the bossy (imperative) verbs

- If you have already written your instructions, highlight the bossy verbs you have used. If you haven't used a bossy verb, can you add one in to your sentence?

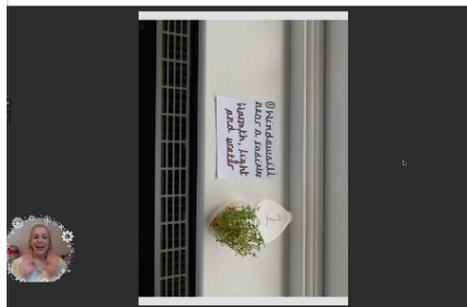

### Challenge:

- For 2 classdojo points, write a set of instructions directing someone to do something (like baking a cake) using bossy verbs.

Science (15 minutes)

### Cress investigation

Watch the teaching video below:

Cress Investigation (Day 7) and Roots
