Extension questions:

Task A choose at least 1

Task B choose at least 2

1)

Teddy is comparing two numbers.

My number is larger than 19 but not one more than 19

$$23 > \square$$

What could Teddy's number be?

What can't it be?

Parent answer:

Teddy's number could be 21 or 22
It can't be 20 as this is one more than 19

2)

Dora compares the two values.

$$23 < 3 \text{ tens and } 3 \text{ ones}$$

Change one thing in the values so they are equal.

Parent answer:

Dora could change
 $23 = \underline{2} \text{ tens and } 3 \text{ ones}$ or $\underline{3}3 = 3 \text{ tens and } 3 \text{ ones}$.

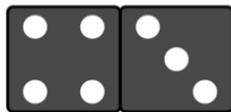

3)

Parent answer:

Pick two dominoes to represent two two-digit numbers.

For example,

43

21

Then compare them using $<$, $>$ or $=$

$$43 > 21 \quad 21 < 43$$

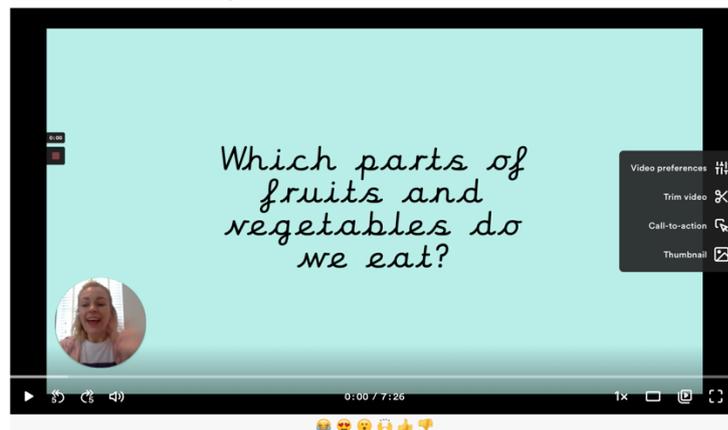

Explain how you know.

Children could do this with a partner.

Possible response:
43 is larger than 21 as it has more tens.
